Lefler Triggers Two Plans To Improve OU Quarters

By Leo Meidlinger

Omaha University's urgent need for classroom and faculty office space triggered two moves by campus planner Clarence Lefler this week.

Lefler announced tentative plans for the purchase of a prefabricated quonset-type building from School District 66 and the remodeling of Room 116 in the Applied Arts to make room for three additional faculty offices.

Awaiting Approval

Lefler and Dean of Administration Kirk Naylor talked with officials of the school district yesterday, and according to Lefler, "we agreed on a very nominal purchase price pending the approval of the district's board of directors."

The University will take what is now an L-shaped building and cut it into two separate facilities, 24 feet long by 72 feet wide. They will be located

plus several other smaller facilities, will be quite drastic, as sketched below.

Three-double offices will be built on the east wall of the room. The GATEWAY editor's office will be torn out to make room for some of the space and will be relocated just south of Room 114. (Room 114 is located within the confines of 116).

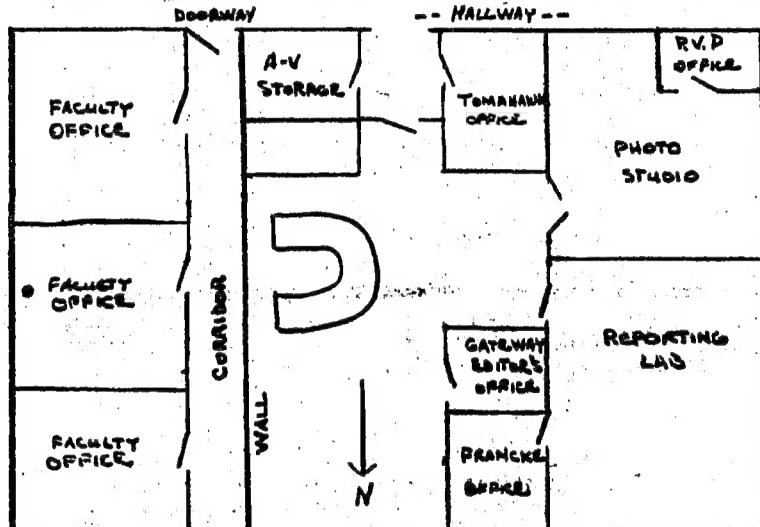

Access to the offices will be provided for by tearing through the outside corridor wall and inserting a door. A corridor to the offices will also be constructed, Lefler pointed out.

With all the activities that go on in the Student Publications office, a method for separating the faculty offices from publications had to be devised.

Wall

Lefler decided that a wall should be constructed 16 feet

-- HALLWAY --

just north of the Applied Arts building.

Dean Naylor noted that the buildings will be used for "instructional purposes." He said Registrar Virgil Sharpe is now checking with department heads to find out where the greatest scheduling problems lie.

"The way things stand at the moment," Naylor added, "engineering and drafting classes will probably use the facilities the majority of the time."

New Offices

The work to be done on AA 116, currently housing GATEWAY and TOMAHAWK offices

from the east wall so both occupants of the room (faculty and publications) could have some privacy. Some cabinet space on the north wall will be relocated to make room for the wall.

The TOMAHAWK office and the Audio Visual Department's storage room will remain intact, according to Lefler.

The photo studio, located in Room 112, will continue in its present capacity. Tentative plans also call for the temporary re-location of Journalism Department head Paul V. Peterson's office in the room.

OU Beauties In Miss Omaha Contest

Omaha University offers beauty to the city of Omaha as three students place in the finals of the Miss Omaha contest. Pictured above are Gail Rowden (left) and S. J. Johnson. Not pictured is Barbara Spicer.

Regents Approve Budget; 71% Comes From Student

By Linda Priesman

Approval of the 1965-66 budget of \$5,740,974 was given by the Omaha University Board of Regents at the monthly meeting held yesterday noon.

The budget is effective September 1, 1965. Of this amount \$4,782,000 will come from tuition, taxes and miscellaneous. A self-supporting revolving fund (bookstore, foodservice, parking meters, etc.) will provide \$958,974 for the new budget.

This represents an increase of \$69,000 or 14.5 per cent over the 1964-65 budget of \$4,173,000.

This means students will pay 71.6 per cent of \$3,424,000 of the total operating budget, while the taxpayers will contribute 26.1 per cent or \$1,250,000. Another \$108,000 or 2.3 per cent will come from miscellaneous income.

Breakdown

Of the total operating expenses for next year \$3,903,288 (81.6 per cent) will go for salaries including social security, retirement and medical; \$540,980 (11.3 per cent) for maintenance; \$173,157 (3.6 per cent) for equipment; \$114,575 (2.4 per cent) for student assistance and \$50,000 (1.1 per cent) to building reserve.

The new budget is based upon estimated enrollments of 4,500 day students per semester, 4,500 evening students per semester and a summer school enrollment of 3,500 including both five-week sessions.

New Faculty

The Regents also appointed 10 new faculty members, effective September 1, 1965.

—Mr. Lawrence E. Ehlers was named associate professor of engineering. He comes to OU from Oklahoma State University where he is completing work on his Ph.D., expected this year. He received his bachelor's and master's degrees from Kansas State University in 1957 and 1960.

—Sonia Rae Green was appointed instructor of women's physical education. She is completing work on her master's degree at OU (expected 1965) and received her bachelor's degree from the University in 1960.

—Appointed instructor of sociology and consultant on com-

puter adaptations in the social science is Kathryn E. Hess. She comes from the University of Nebraska where she has been an assistant instructor in the department of Psychiatry and Neurology. She holds bachelor's and master's degrees from Illinois State University and the University of Nebraska, respectively.

—Dr. James O. Johnston was appointed assistant professor of psychology. A former Claremore, Okla., teacher and principal, he comes to OU from Purdue University where he has been assistant professor. He holds B.S., M.S. and Ph.D. degrees from Oklahoma State University.

—Joseph S. LaCascia was named assistant professor of economics. A candidate for a Ph.D. from the University of Florida, he holds a bachelor's from the University of the Americas and his master's from Middlebury College. He comes to OU from Kansas State Teacher's College where he was a lecturer.

—Appointed instructor of physical education for women was Vera Lundahl who comes from Wayne State College where she was assistant professor. She received her bachelor's degree from the University of Nebraska and her master's from the University of Illinois. She formerly taught at OU from 1950-1954.

—Mrs. Shirley Schultz was named instructor of elementary education. She received her bachelor's degree in 1964 from OU and is completing work on her master's this year, while working as an assistant instructor.

Letter To The Editor

Miss Rooney Secures Title

Dear Editor,
Maybe we should reconsider school elections such as the Homecoming Queen and the Maie Day Princess elections. I feel that I cannot wholeheartedly support this type of selection for two reasons.

(1.) The candidates compete on a personality basis. There are really no qualifications other than (sic) popularity and beauty which all the candidates have. Since there are no second or third place winners, we, the voters, are faced with the responsibility of creating three losers. We are not even rejecting the person's qualifications or ideas, we must reject the person. This I find rather distasteful.

(2.) Such elections do not offer the winner a working position where they might accomplish a good work. They are intended solely to honor a person. As the procedure is now, we are encouraging the candidates to seek honor for themselves. This is hardly an admirable practice and is advised against in the New Testament teachings.

Perhaps it would be better to have the Student Council nominate a group of candidates and let the student body elect a winner without the campaigning by the candidates themselves. This procedure would be much less bruising to the egos of the losers and would not place the candidates in an embarrassing position.

Sincerely,
Kelley K. Shuman

Miss Rooney is a freshman at Omaha University majoring in drama. She combined her drama and dancing abilities for the talent division to do a jazz routine.

Her duties as Miss Blair have already begun. Saturday, May 15 she made appearances in a parade, at a dance and lunched with Governor Morrison's wife and Senator Holmquist.

"My most important duty for Blair now will be to win the state title for them," Miss Rooney said.

The Miss Nebraska contest will be held in York June 16-June 20. Winner of that title will advance to the Miss America pageant in September.

KWOU your campus radio station, staffed by fellow students.

Hronek Is Accepted By Radcliffe, Peace Corps After Graduation

Where does hard work and study get you? In Sheri Hronek's case, Radcliffe or the Philippines...it's her choice.

The 22-year-old senior is one of 50 students in the United States chosen to attend a summer graduate course at Radcliffe College. And she has also been accepted for training in the Peace Corps. They want her to teach English in the Philippine Islands.

Sheri will attend the June 23-August 3 "Publishing Procedures" course at Cambridge, Mass. She will probably be available after October 1 for Peace Corps work. She will, however, stay in the East after the completion of her course and look for a job in journalism.

The blonde, blue-eyed senior, who edited the 1965 TOMAHAWK yearbook, will attend Radcliffe from 9:30-noon and 2-4 p.m. The course's teaching staff consists of practicing publishers and there will be 40 visiting lecturers.

The consistent Dean's List Student is looking forward to doing research in both Rad-

cliff's and Harvard's libraries. The Harvard library houses the personal letters of Walter Hines Page, on whom she has done two research papers this year.

Sheri, a journalism major, applied for acceptance at Radcliffe early in March. She had to list her grades and campus accomplishments, which included: a 3.57 accumulative average and a 3.98 in her major field (she had straight A's last semester). She will graduate "with distinction" this spring and has a chance to graduate "cum laude."

TOMAHAWK Editor

Besides being editor of the TOMAHAWK, Sheri has been senior editor of the yearbook and feature editor of the GATEWAY. She is a member of Alpha Lambda Delta, freshman women's honorary; Corinthians honorary and Waakiya, senior scholastic and leadership honorary.

She was recently awarded the Zeta Tau Alpha award for her "outstanding contributions to journalism." Sheri is a member of Chi Omega sorority, for which she has been chapter correspondent. This year she served on the Board of Student Publications.

Sheri, who works part-time in OU's Public Relations Office, eventually hopes to be a foreign correspondent.

Senior Takes Unusual Job

Tough, unusual jobs are nothing new for Mike Mathis. The 23-year-old senior has held his share of them while working on his double major in history and English.

A native of Denver, Mathis graduated from Cathedral High School in Denver in 1959. That was followed by a job as manager of an interior decorator's shop. In the fall of 1960 he enrolled at the University of Colorado. While attending Colorado U, Mathis worked in a brickyard for one summer. Because of the heat involved in the brick-making process, the crew worked from 3:30 a.m. until noon to avoid the heat of the day.

Another hot summer for Mathis entailed fighting forest fires while working for the forestry service in Colorado.

'Jump Into Fire'

There were no accessible roads in many of the mountainous areas. Consequently, fighting a fire in such an area meant parachuting fire fighters to the scene. Mathis made three jumps during his tour of duty with the forestry service.

"It wasn't so bad—we got an extra 25 dollars per jump," said Mathis. "However," he recalled, "one time we were dropped into an area to fight a fire and were stranded for two weeks waiting for them to bulldoze a road in to get us out of there."

Another time, the firefighters were dropped in the wrong place and were nearly surrounded by the fire.

Other experiences with the service included helping misguided tourists and hunting down a crazed cougar that had been terrorizing the area.

Student Teacher

Mathis entered OU in the fall of 1963. He plans to graduate in January of 1965. His first job in Omaha was as a radio announcer for KOWH and KQAL. He is currently student teaching an American Government class at Benson High. Next semester, he plans to student teach at North.

In addition, Mathis spends four evenings a week as a tutor at the Omaha Home for Boys. He tutors 31 boys in junior high and high school subjects ranging from seventh grade algebra to high school physics and chemistry.

"I also serve as a sort of unofficial counselor to the boys," Mathis added. "Often they will come to me with problems that they hesitate to take to their counselor or houseparents."

Mathis is a member of Phi Alpha Theta Honorary History fraternity, a member of NEA and was among those honored at the recent Honors Convocation at OU.

After receiving his Bachelor's Degree in January, Mathis plans to enter the University of Denver to begin work on a Master's Degree.

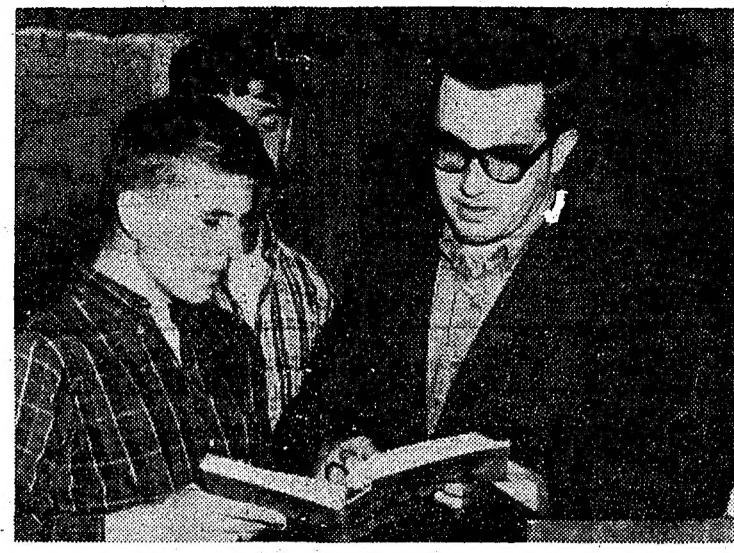

Jack Teter Wins Williams' Award

An Omaha University graduate was awarded the Sylvester Williams award Wednesday night for being the outstanding industrial engineering student.

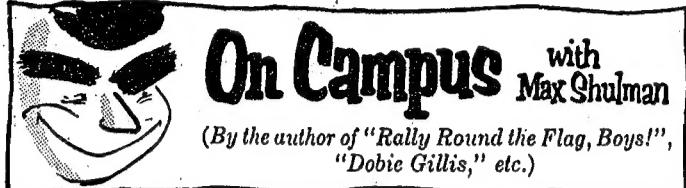

He is Jack D. Teter, Jr., a January OU grad.

The award was presented by the Omaha chapter of the American Institute of Industrial Engineers.

Col. Anson Marston, engineering department head, reports that Teter is now working for the Minnesota Mining and Manufacturing (Three M) company. The company flew Teter to Omaha Wednesday so he could receive his award.

Mike Mathis . . . in role of tutor.

TESTS, AND HOW THEY GREW

Just the other night I was saying to the little woman, "Do you think the importance of tests in American colleges is being overemphasized?" (Incidentally, the little woman is not, as you might think, my wife. My wife is far from a little woman. She is, in fact, nearly seven feet high and man-sized with rippling muscles. She is a full-blooded Ogallala Sioux and holds the world's shot put record. The little woman I referred to is someone we found crouching under the sofa when we moved into our apartment back in 1928, and there she has remained ever since. She never speaks except to make a kind of guttural clicking sound when she is hungry. To tell you the truth, she's not too much fun to have around the house, but with my wife away at track meets, most of the time, at least it gives me someone to talk to.)

But I digress. "Do you think the importance of tests in American colleges is being overemphasized?" I said the other night to the little woman, and then I said, "Yes, Max, I do think the importance of tests in American colleges is being overemphasized." (As I explained, the little woman does not speak, so when we have conversations, I am forced to do both parts.)

But I digress. To get back to tests—sure, they're important, but let's not allow them to get too important. There are, after all, many talents which simply can't be measured by quizzes. Is it right to penalize a gifted student whose gifts don't happen to fall into an academic category? Like, for instance, Finster Sigafoos?

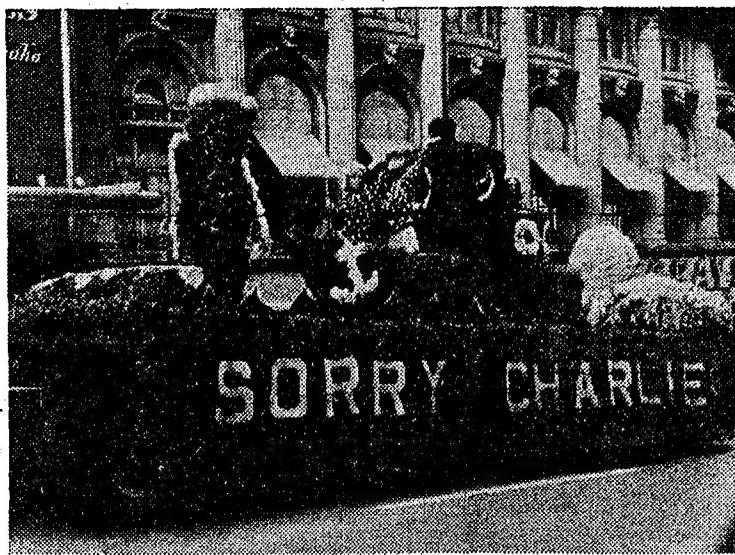

She is a full-blooded Ogallala Sioux . . .

Finster, a freshman at the Wyoming College of Belles Lettres and Fingerprint Identification, has never passed a single test; yet all who know him agree he is studded with talent like a ham with cloves. He can, for example, sleep standing up. He can do a perfect imitation of a scarlet tanager. (I don't mean just the bird calls; I mean he can fly south in the winter.) He can pick up BB's with his toes. He can say "toy boat" three times fast. He can build a rude telephone out of 100 yards of string and two empty Personna Stainless Steel Razor Blade packages. (This last accomplishment is the one Finster is proudest of—not building the telephone but emptying the Personna packs. To empty a Personna pack is not easily accomplished, believe you me, not if you're a person who likes to get full value out of his razor blades. And full value is just what Personnas deliver. They last and last and keep on lasting; luxury shave follows luxury shave in numbers that make the mind boggle. Why don't you see for yourself? Personnas are now available in two varieties: a brand-new stainless steel injector blade for users of injector razors—and the familiar double-edge stainless steel blade so dear to the hearts and kind to the kissers of so many happy Americans, blades so smooth-shaving, so long-lasting that the Personna Co. makes the following guarantee: If you don't agree Personna gives you more luxury shaves than Beep-Beep or any other brand you might name, Personna will buy you a pack of whatever kind you think is better.)

But I digress. Back to Finster Sigafoos—artist, humanist, philosopher, and freshman since 1939. Will the world ever benefit from Finster's great gifts? Alas, no. He is in college to stay.

But even more tragic for mankind is the case of Clare de Loon. Clare, a classmate of Finster's, had no talent, no gifts, no brains, no personality. All she had was a knack for taking tests. She would cram like mad before a test, always get a perfect score, and then promptly forget everything she had learned. Naturally, she graduated with highest honors and degrees by the dozen, but the sad fact is that she left college no more educated and no more prepared to cope with the world than she was when she entered. Today, a broken woman, she crouches under my sofa.

© 1965 MAX SHULMAN
Speaking of tests, we, the makers of Personna®, put our blades through an impressive number before we send them to market. We also make—and thoroughly test—an aerosol shave that soaks rings around any other lather: Burma Shave®, regular and menthol.

Zeta Tau Alpha's "Sorry Charlie" captured the top prize in the Ma-Je Day Parade last week. See page 8 for story.

Ed Dept. Gets New Facilities

"Proposed structural changes will allow for increased utilization of present space" according to Department of Special Education Chairman Dr. Walter Beaupre.

"The complex of clinical service changes will also make it possible for qualified students to observe all areas usually found in public schools and Beaupre community programs," he continued.

The program is scheduled to be completed by September of this year.

The new plan calls for a central office in Room 105 of the Administration building which will handle referrals from outside the University of Omaha.

ha for services associated with speech and hearing.

Training Function

"The department maintains that the primary function of the University clinic is the training of students," Dr. Beaupre said.

Services from the professional training of the school are to be free to the general public. Diagnostic interviews, therapy sessions and clinical data can be made available to faculty and students for demonstration, instruction and research.

Dr. Lorin Staats, also of the department, has been working on program materials for individual instruction of students who want help with voice or speech problems. The language laboratory facilities will be available for these students.

"Services will be available free of charge not only to school systems and private agencies but also to university faculty, students and their families," Dr. Beaupre concluded.

June Brings More School

Summer at Omaha University doesn't mean vacation. Summer sessions begin June 14.

They will serve recent high school graduates hoping to get a head start in college, housewives, businessmen and other college students who are home for the summer.

There will be two five-week sessions during the day. The first is June 14-July 16; the second, July 19-August 5. Day classes meet Monday through Friday and evening classes will be held Tuesdays and Thursdays. Both undergraduate and graduate courses are being offered.

Registration is June 11 and 12. Those wishing to attend the second day-session have until July 16 to register. Further information can be obtained from the Director of Admissions, Adm. 202.

Over 380 classes are being offered, reading, writing and arithmetic to photography and driver training. Sessions are held in air-conditioned classrooms.

Nancy Schneiderwind Receives Y.R. Honor

An Omaha University student has been named Miss Nebraska Young Republican.

She is Nancy Schneiderwind, president of the OU chapter of Y.R.'s.

Her new title enables her to represent Nebraska at the National Young Republican convention in Miami, Fla. during the second week in June.

Among the things she will be judged on are congeniality, Republican activities and appearance in evening clothes.

Top leaders in the Republican party will attend the Florida meet.

Omaha U. Has 3 Workshops

Three workshops will be held at Omaha University this summer; one dealing with economic education and the other two with training people to work with disadvantaged pre-school children.

A Summer Workshop in Economic Education will be held July 12-30 for forty elementary, junior and senior high school teachers to increase teachers' knowledge and understanding of economics, study economic issues and their explanation and acquaint teachers with classroom materials in the study of economics.

Co-directors of the workshop are Dr. Elroy Steele, head of the OU economics department and Dr. Paul Kennedy, head of the OU secondary education department.

OU has also received a \$9000 grant from the federal government's Office of Economic Opportunity for two six-day workshops, May 31-June 5 and June 7-12. They will orient people who will work in 14 Child Development Centers in Omaha to help disadvantaged pre-schoolers. Dr. Hollie Bethel, head of OU's department of elementary education, is heading this program.

Typewriter Stolen From AA Building

While Omaha University students and faculty were busy lunching at the Ma-Je Day steak fry last Friday at least one other person was taking part in another less constructive task.

An electric typewriter was stolen from Mrs. Helen Hollingworth's office in room 138 of the Applied Arts building. Mrs. Hollingworth reports that the theft took place some time between noon and 12:50 p.m. when she returned from the Pep Bowl steak fry.

The SCM typewriter was purchased for Mrs. Hollingworth's use about one month ago. It is valued at \$250.

Thinking that someone was playing a practical joke, she first looked for it in the office concourse. Unable to locate the machine, she notified the Physical Plant department. The Purchasing department was then notified since it has the serial number of the typewriter.

So far no leads have turned up in the case of the stolen machine.

Hospital Releases G. Smiley Following Three-Car Collision

A University of Omaha student, Gordone E. Smiley of 10756 Grover St., was hospitalized Saturday night following a three car collision.

Smiley's car collided with a car turning in front of him and careened off into a third car.

Twelve stitches were taken in Smiley's nose and ten in his

knee.

He was released from the hospital Tuesday.

The first college term at the University of Omaha opened in September, 1909, under the leadership of Dr. Daniel Jenkins.

From The Bushes

By Mike Moran

At Long Last . . .

With this issue of the GATEWAY, Mike Moran and From The Bushes becomes part of the proverbial journalism storage closet. (That means it ain't no more).

Remembered by some, forgotten by most will be my fate. However, there are those that will miss this column (my mom and dad and brother) and there are those that will be glad to see it go (certain Deans, most of the coaching staff and players, and Pittsburg State College.)

There have been other columns written on the sports pages of our illustrious rag in the past, and I am sure there will be many more. The only hope is that a writer's work is different enough that his will be remembered.

In five years of college, four of them at Omaha U, I've had a chance to see some strange things in athletics. At OU, it has been my pleasure to be associated with many fine men in sports. There have been just as many jerks as well.

Nothing But The Best . . .

My memory takes me back to September 19th, 1961 and the rejuvenation of Omaha football. All summer long coach Al Caniglia and his staff had worked to sell season tickets, to promote, to recruit and to build a winner after three futile years of poor teams.

With a crowd of some 5,000 fans watching, the Indians buried Morningside, 32-0, and a group with names like Jesko, Blazevich, Hepburn, Kettle, Meyers ushered in a new era.

A swift halfback named Sayers scored three times for Omaha as another great career began to flower.

That team ended the season playing Pittsburg State for the CIC championship. They lost, but the 6-3 record was the first winner in eight years.

That winter, a square-jawed man with energy to burn took over the worst basketball program in the state. Jim Borsheim walked into a trap that had been set for him by mediocre coaching, poor material and no scholarships. His first effort finished 5-14. But that team learned something, and I was a part of it. We didn't win, but we learned the game of basketball.

Today, with still no scholarships and after hours of frustrating work on his own time, Borsheim has had two winners and the best basketball teams at OU in ten years. Despite ineligibility and personal problems with players, the guy has kept his sanity. When it comes time to cut the athletic budget pie, I hope he gets a suitable size slice this time around. Talk about underrated people . . .

The Big Cigar . . .

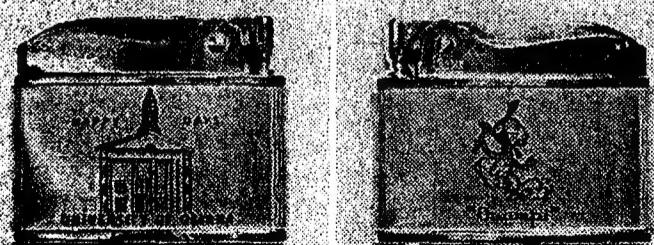

And still the football program improves. Al Caniglia and his fine assistants still have to put in the long hours, pay for their own phone calls, and try to recruit players on a dream . . . but they do it.

There are still academic requirements to be met, yet his players survive without "help" from inside. Omaha U has had some gentlemen who, from time to time, have been less than desirable on its football teams, but as many of them have been just the opposite, many more so indeed.

Who can forget the immense thrill when OU belted East Central Oklahoma in the All-Sports Bowl at Oklahoma City two years ago?

Or the joy of the fans when the Indians belted Pittsburg, 35-0, for their first CIC title that same year? (Cont'd. on Page 5)

Omaha Rips Pittsburg, 7-0, In NAIA Fray; South Dakota St. Falls To OU Fourbaggers

Omaha pounded out 24 hits and 23 runs, nine of them on home runs, to bury South Dakota State, 23-1 in the first game of a doubleheader at Brookings Monday. The Jackrabbits bounced back to hand Ken McEwen his first loss in the nightcap, 6-5.

The first game was a dilly. A gale force wind blowing from behind the plate sent pop flies soaring over a 325 foot left-field fence. OU outfielder Gary Gilmore said, "Smokey the Bear could have hit one out if he wanted."

OU ace Larry Krehbiel went the first four innings and didn't allow a run. Lefty Larry Wood and Jim Butler mopped up for the Indians.

OU came back from a 5-0 deficit to tie the game in the nightcap. But Ken McEwen gave up a single and a double in the ninth inning for the South Dakota State victory.

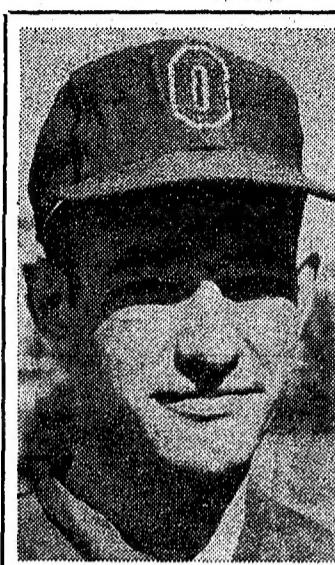

OU starter Gary Girouard was bombed for four runs in four innings before being relieved.

Second game—
South Dakota State

ab r h bi ab r h bi

OU's Larry Krehbiel blanked Pittsburg State, the CIC champs, 7-0, Thursday afternoon in the first game of the NAIA Area Playoffs in Omaha. The Indians were to meet the winner of the Wayne-Sterling second game last night at 8:30. The win hiked Krehbiel's record to 6-2. Omaha is 15-6 on the year. The playoff winner will play the North Area winner next week for a spot in the national championships beginning June 7th at St. Joseph, Missouri.

Missourians Fall

William Jewell became Omaha's 18th victim of the year last Saturday at Rosenblatt Stadium, 3-2, in twelve innings. The Indians got 18 hits and left 17 men on base in an evening of futility that finally ended with Rich Lang singling home the winning run in the 12th.

Ken McEwen got his fifth win against no losses in relief of starter Larry Wood, who went the first six and turned in a good job.

Omaha filled the bases in the sixth, eighth and ninth innings but couldn't score . . .

From The Bushes

(Cont'd. from Page 4)

Remember the steel goal posts that fell?

Then there was the 34-29 thriller over Drake, the frustrating losses to powerful Northern Illinois, the running of Gerry Allen against Bradley last year and the many other wonderful moments that OU football has given its loyal fans in the last four years.

Next fall, another Indian powerhouse is looming. The most attractive schedule in history awaits the squad. Night football will offer OU students a chance to support their team more than ever before. Will they be equal to the occasion?

The Old Horses . . .

Those two old Huskers, Lloyd Cardwell and Virgil Yelkin seem undisturbed by time and tide. Cardie, the most easygoing and friendliest of the OU coaches, has had his moments.

Never was a coach blessed with two sprinters like Rocket Roger Sayers and Terry Williams. A second place NAIA finish in 1963 and the feats of his stars will make a fine scrapbook for the "Wild Horse" and his grandchildren.

Some of my most memorable experiences at OU have come through Cardie and Sayers. I traveled with them to many meets, including one in New York last year. The man with the ever-present pipe and his matter-of-fact speech will stick in my mind for some time.

I may not see Virg Yelkin again, but I will always recognize his baseball teams. The professional way in which they do everything speaks for itself.

Yelkin's record won't be matched by many . . . his players won't forget the things they have learned. He may be a tough man to deal with, a friend to some and an enemy to others. There are those that accuse him of soft schedules. Other coaches wonder at how he recruits without benefit of scholarships, or how he develops ball-players out of mediocre kids.

Those questions may never be answered, but he still does it and that's all that counts.

Supporting Cast . . .

Behind the scenes wait men like Don Watchorn, Don Benning, Ken Fischer, Carl Meyers and others. A head coach is only as strong as his assistants, and the OU bunch is as fine as they come. It will seem like a big hole in the wall when one departs for greener pastures.

Then there are the men who get less publicity but are respected by all. Harvey Vogler, the business manager, a man who runs a tight ship. Harvey seems a tightwad to some, but never was there a bigger fan or a man more interested in the players and coaches. Vogler is probably one of the keenest judges of character that has ever lived. You either stay away from him or like him a lot. I like him.

Probably the most underestimated man in sports at OU is Bert Kurth. Away from the pressures of his "big time" brothers, Kurth runs an intramural program that keeps the little guy and the kid who wasn't big enough happy in a sport. Bert knows each of his kids personally and that may be the biggest tribute we can pay to him.

When his kids won the NAIA bowling title this past week, he couldn't hide his pleasure. Well and good, because they came out of his program.

He doesn't sit in his office much. I'll never forget this year when he approached me and demanded that the journalism department field a basketball team for the tournament. Not content to see kids play if they want, Kurth sees to it that they all have a chance.

And I will never forget a man named Fran Hurst. Many have called him a "friend" simply because he is always there for every game.

Many is the boy who was on the edge of a poor grade and Dr. Hurst found a way for that boy to make the grade. He was firm with athletes in his classes, yet went out of his way to see that they understood what they were hearing and reading.

There are many athletes who didn't see the purpose of studying until Hurst got through with them. On the side, unknown to most, he was always working for the kids.

He sponsored anything he was asked to, sought financial help for needy athletes, sold tickets, and still found time to earn a living for his family.

I wonder how many times I have seen him with a stop-watch in his hand at a track meet, with a pencil and pad at a football game, or sitting in a white trench coat high in the stands during a football or baseball game.

The real "fans" are few . . . the real friends fewer. I have mentioned some of the better ones.

I'll always remember the OU athletic program because there's room for anyone to get in. The offices of the staff are always open for a friendly chat with anyone who'd like to talk sports.

The "big time" atmosphere hasn't invaded the campus and here's hoping it won't.

Amen . . .

A year seems like a long time to some . . . but not to me. All of a sudden it is over and there seems so many things that I didn't get to say.

What I have said in this column hasn't always been the most entertaining or the most appropriate thing. People have complained about "too much emphasis on sports" in this year's GATEWAY.

In my opinion, there has never been enough. Sports and OU teams give the student something real, something concrete to attach himself to. Our teams represent us. They are Us.

A sports editor cut from the same mold as myself will follow me next fall. I hope he keeps up the "over-emphasis."

Sports was, has been, and will always be my life. I hope I have contributed something to it at OU.

So long . . .

New Stars Unveiled As Reds Nick Whites, 33-20, In Gridiron Feature

by Mike Moran

It was just like old times at the Omaha U Stadium last Saturday afternoon. The annual spring football scrimmage, expected to produce little in the way of excitement, shook loose a host of thrilling newcomers as the Reds beat the Whites, 33-20.

The veteran dominated Reds, quarterbacked by All-CIC junior Marlin Briscoe, rolled to a commanding 33-7 halftime lead. The big bulge was a direct result of some fancy footwork and pass receiving by Kansas transfer Rick (The Quick) Davis.

The 175 pounder, set out on the flanker spot in OU's newly developed pro offense, hauled in scoring tosses of 14, 32, and 54 yards from Briscoe in an amazing display of maneuvering around larger defenders.

Allen Tough

With Little All-American Gerry Allen going outside on power sweeps, the Reds added two more scores on sneaks by Briscoe and standin Bill Haas, the Ralston soph signal caller.

Transfer George Blankenship kicked one extra point and ran for another on a bad snap. Terry Edwards added the other extra point from placement.

The only bright spot in the first half for the seemingly outmanned Whites was the pass catching-running talents of red-shirt fullback Doug Young.

He scored the only White tally in the first half on a 27-yard pass-run play from Joe Benson. His second half performance was something to behold.

Doug's Destruction

The Reds, with the game seemingly in hand, didn't put together a scoring threat in the third quarter. That's where Young and company took over for the Whites.

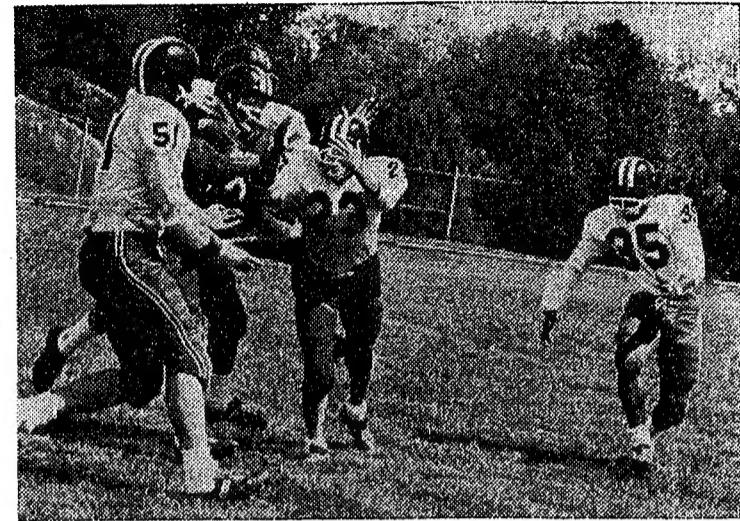

Quarterback Benson went to the power sweeps with Young going right and then left. Before the dust had settled, the

Whites had scored twice on short plunges and the game was a close one.

The Whites saw possible scores nullified twice by fumbles and had one score called back on a penalty.

After the game, coaches were quick to cite Davis and Young for outstanding performances. They hastily added the fact that the pass receiving was the best of any Indian squad since Caniglio took over the reins.

Other highlights included the best hitting and tackling since

OU's Rick Davis Hauls In A Long Toss . . .

Then Scores On Another During Spree . . .

soph had scored twice on short plunges and the game was a close one.

The Whites saw possible scores nullified twice by fumbles and had one score called back on a penalty.

The overall estimate was that this team has the best material in three seasons. With several more newcomers expected in the fall, competition is going to be stronger than this spring.

All signs point to a banner year at Omaha U. First test comes September 18th against Idaho State at Rosenblatt Stadium.

Sport Shorts

Jane Stockman has been elected president of Inter-Pep Council for next year. She has been serving currently as secretary of the Council.

Other officers are Judi Zerbe, vice-president; Don McMichel, secretary; and Carolyn Williams, treasurer.

New representatives to the Council will be chosen by their respective groups next year.

Thirteen coeds have been selected as members of the 1965-66 Indianans marching group. They are Kitti Murphy, Joan Holdapfel, Judy Anderson, Nancy Stevenson, Sandi Burdick, Georgeanne Schnurr, Sue Zimmer, Chynne Koser, Kathy Hadfield, Jackie Horn, Marilyn Miller, and Bobbi Meek. Other members will be chosen during the summer.

The Intramural golf tournament ends May 23 at the Elmwood Park course.

The tennis tournament is in progress. Participants are asked to turn in their scores to the Intramural office. Players are asked to make arrangements for their next round.

Today marks the last day of the Intramural track meet being held on the outdoor oval. Time of the meet is set from 2:30 - 3:30 p.m.

Tekes Remain Unbeaten In Softball Standings; Championship Is Near

By Roger L. Prai, Sr.

The TKE's managed to remain the only undefeated team in intramural softball by squeezing past the Pi Kaps 7-5 last Monday.

They will meet the winners of league #3, the Team, Monday on the East diamond.

On the West diamond the two co-winners of league #2 will battle it out for sole possession of first place. The contest between the Bad Guys and the Animals is rated a toss-up. The winners will then meet in a head-to-head clash the following Wednesday.

Strong pitching and fine fielding kept the TKE's on top throughout the year. While they didn't have too much to offer in the way of pitching, the rest of the league had even less. Good hitting kept the Pi Kaps in close contention with the Lambda Chi's trailing for third place in the final standings.

In other softball action last week, the Pi Kaps plastered the Lit Pikes 19-3 while the Lambda Chi's managed to outlast the Bad Guys to the tune of 16-12.

In softball action this week, Bad Guys bounced back to take a 19-14 win over the cellar dwelling Theta Chi's. The Pi Kaps were upset by the Flyers, 7-5, thus giving the Flyers a 2-2 record in league #2.

The Animals beat the Sig Eps 6-3 in a closely fought contest.

In games played Wednesday

the 1963 Indian team of the "Fearsome Foursome." The staff called the defense "excellent" for the time allotted to it this spring.

The overall estimate was that this team has the best material in three seasons. With several more newcomers expected in the fall, competition is going to be stronger than this spring.

All signs point to a banner year at Omaha U. First test comes September 18th against Idaho State at Rosenblatt Stadium.

One Cap And Gown, One Diploma

I'm not so ancient that I can't remember my high school graduation and the ceremony that went with it. There was something mystical and exciting as I and my classmates paraded into the stadium, surrounded by several blinding lights that lent a special dazzle to the occasion. And I know I'll never forget the thrill of accomplishment when I ascended the flower encrusted stairway up to the platform to receive my high school diploma before my family and friends.

Well, that was in 1961. In that same year, I entered the University of Omaha, anxious to put aside the things of my youth and get on with my college education. Yet, somewhere, in the back of my mind, I envisioned that day when I would again mount the platform here at my new alma mater and receive my baccalaureate degree with the same pomp and ceremony I felt should be a part of the occasion.

And now, it is graduation time. But, it has been announced recently that "this year's commencement will be marked by a change in procedure in picking up degrees." The present plans we are told, "call for the abolishment of each undergraduate receiving his degree individually from the President." Instead, the graduates will be handed their diplomas when they return their caps and gowns. I was crushed—well, at least I was let down.

What has happened to the pomp and ceremony that used to be the highlight of such an event as college commencement exercises? Also, I was informed that there would be no formal Baccalaureate Convocation this year. It was suggested that I attend the church of my choice on Sunday, June 6, as my own personal baccalaureate service. I go to church every Sunday the way it is, so . . .

It is true, that this June's graduating class is a big one—900 to 950. But, there must be a more personal way to conduct a commencement convocation than to just distribute diplomas in such an unceremonial, meaningless way. Has the age of mass production and expediency wrought such a solution? Are future commencement exercises fated to be stripped of all their traditional trappings and be reduced to just another "stand-in-line-and-pick-up-a-diploma" doldrum?

Perhaps I could (and probably will) be called a silly, sentimental young woman who just doesn't understand the complexities of graduating 950 students. However, I feel there is a better, more personal way in which the diplomas could be handed out. A little sentimentality is not a bad thing and besides, it's pretty easy to get sentimental over receiving a baccalaureate degree into which you have so long invested an abundance of time, self, hard work, money and, yes, much sentiment.

Students Sit-In

Two weeks ago last Wednesday, May 5 from 2 to 4 o'clock in the afternoon, one of the Committee's for the Future subcommittees met in the Gene Eppley Conference Center Auditorium. But, they did not meet alone, behind closed doors as before. This was the first time in OU history that the committee's door was open to welcome any and all interested students who wished to sit in on their meeting and join in discussing OU and the possibilities for its future.

Only 25 or 30 students came to the meeting. I'm sorry to say that more did not attend. But those who did come were pleasingly vociferous and had everything from good ideas to offer to unrealistic proposals. The questions asked and the suggestions offered were, in most cases, searching. But, these questions and proposals themselves were not the biggest accomplishment forthcoming from this meeting. The accomplishment lies in the actual getting together of faculty and at least a segment of the student body to discuss, in an orderly fashion, points of mutual interest and concern.

Of course, nothing definite was gleaned from this meeting. The committee members asked only for discussion and suggestions so that they might have a better understanding so they might act to the best interests of all concerned. But, I do think that they were surprised at some of the dialogue that transpired, even though they were able to hide it behind their professional countenances.

I hope that the committee will meet again at some later date with the students. The exchange may not be great enough to move any mountains but a tiny noise has been known to start an avalanche.

Steele: Small World, Isn't

The professor mounted his podium . . . "Hello, my name's Steele—with an 'e' on the end of it." With this greeting, Dr. E. J. Steele, head of Omaha University's department of economics, began another class in Money and Banking. After the class was over a bootstrapper came up to Dr. Steele and their discussion led to Dr. Steele's learning of a brother he had not seen or heard from for about

37 years.

"My brother (Dick) joined the Army when he was 20 and no one heard from him for years," noted Steele. Dr. Steele tried to locate him on various occasions without success. And then, last fall he met a bootstrapper in his Money and Banking class who had known his brother because he also made it a point to let people know he spelled his name, Steele, with an "e" on the end of it."

Dean Gorman Helps GOCA

Frank H. Gorman, Dean of the College of Teacher Education, will serve on the Projects Review Committee of Greater Omaha Community Action, Inc. (GOCA).

GOCA's aim is to work in the war against poverty by co-ordinating the efforts of programs already working in the community. It also will develop new programs to fill in where existing programs don't reach.

The Projects Review Committee of GOCA, of which Dean Gorman is a member, will work in the second area, reviewing and evaluating all projects submitted to GOCA. The projects which are accepted by GOCA will be financed under the Economic Opportunity Act.

OU Musicians Offer Shows

The Town and Gown Orchestra Concert performed in the Administration Building Auditorium Sunday at 7:30 p.m.

The Orchestra, which is composed of students from the University and persons from the surrounding area, featured works by Purcell, Schubert, Prokofiev and others.

David Busch, senior, did the oboe solo from Cimosa.

Dr. James Peterson, head of the OU music department, was assisted in conducting by Mr. Samuel Thomas, coordinator of music for the Omaha public schools.

Tonight the University Choir is presenting the "Verdi Requiem" at St. Paul Methodist Church at 8 p.m.

Fall Pupil Differs From Spring One

Are the people who enter the University of Omaha for the first time in the spring different from those who enter in the fall? Yes, says Dr. Charles Harkness, head of OU's University Studies Division.

"The person who enters in the spring has a far better knowledge of where he is going," said Dr. Harkness, "but he is not sure how he is going to get there. The important thing to him is money." The person who enters in the fall does not worry about finances, only about his future educational and vocational role, added Dr. Harkness.

A student's academic classification is determined by the number of semester hours of academic credit earned.

Nothing can take the press out of Lee-Prest slacks

Not that it's on his mind right now. And it needn't be. Those Lee-Prest Leesures can't help but stay crisp and neat. No matter what you put them through. They have a new permanent press. So the crease stays in. The wrinkles stay out. Permanently. And that's without ironing. No touch-ups, either. They're made from Lee's special blend of 50% polyester and 50% combed cotton. For wash and wear...with conviction.

Incidentally, that permanent press is the only change we've made in Leesures. They still have that lean, honest look...smart, tailored fit. New Lee-Prest Leesures. Test their permanent press yourself. It isn't necessary, but it's a great way to spend an evening. From \$5.98 to \$7.98.

Lee-PREST Leesures®

H. D. Lee Co., Inc., Kansas City 41, Mo.

Japanese Families Studied By A 61-Year-Old Senior

On June 7th, Mrs. Ida Platt Greenberg will receive a Bachelor of General Education Degree from the University. A month later she will celebrate her 61st birthday. This alone warrants recognition, but another accomplishment Mrs. Greenberg achieved during her stay at OU has to date been overlooked.

Mrs. Greenberg prepared a research paper during the fall semester of this year for her course in Urban Sociology. The paper was entitled, "Japanese Families in Omaha, Nebraska." It has since traveled to Omaha's Mrs. Greenberg sister city in Japan. It is said the Mayor of Shizuoka had the paper translated into Japanese and put in all public libraries in that city.

Mrs. Robert Nakadoi, president of the Japanese American Citizens League in Omaha, helped Mrs. Greenberg obtain her information for the paper. The content dealt with problems the Japanese family has in a community such as Omaha.

Mrs. Greenberg said she learned of 35 Japanese families in Omaha and she personally interviewed 15 of them.

Invitation to Japan

Mr. Richard Walter, a member of Omaha's delegation that recently traveled to Shizuoka, asked Mrs. Greenberg to make the trip and present her paper to the Mayor. The delegation also made a stop in Formosa where

Evans Geared To Electronics

Larry Tom Evans has been electronically geared since he was introduced to the field in grade school. Part of the credit also goes to his uncle who works in electronics.

"Uncle Sam" helped him pursue his career while serving in the Air Force. "I worked in electronics and also helped instruct new people in the electronics weapons control system," Mr. Evans said.

Hospital Technician

Since the service he has been working at Clarkson Hospital as a medical electronics technician. "I repair the equipment used in surgery and modify equipment which has been updated," he continued. "Also, when equipment has been built but is not for sale to the hospital I build it."

Mr. Evans is carrying five hours of Calculus at Omaha University. The 24 year-old sophomore works forty hours a week at the hospital and also ten hours a week for the Technical Institute at OU.

Consuming some of his extra time is a night class of "basic electronics measurements" which he teaches one night a week to 18 students.

The government has granted him his Federal Communications license which permits him to work on transmitting equipment.

Will Transfer

Mr. Evans plans to graduate from the course in 1968. "I won't graduate from O.U. though because they do not grant an electrical engineering degree," he said.

After this year he will probably transfer to the University of Nebraska or University of Denver. "After graduation I want to work in Bio-electronics or teach college electronics," he concluded.

Mrs. Greenberg's son is stationed with the United States Air Force. Illness kept her from making the trip, however, and Mr. Walter presented the paper.

Mrs. Greenberg graduated from Technical High School, (then Commerce School), in 1921. However, she felt she wasn't prepared for college at that time. In 1952 she came to OU as an audit student. Dr. Frances Edwards, then a clinical psychologist at the University, persuaded her to drop auditing and take courses for credit.

12½ Year Degree

Since then, Mrs. Greenberg has gone to school off and on for 12½ years. Various illnesses and the death of Mr. Greenberg two years ago kept her from attending full time. She finished one course by preparing a term paper while in the hospital. She presented the paper in class the day she was dismissed.

When asked why she began over 12 years of off-and-on study, the 60-year-old grandmother replied, "I needed a hobby."

Students Hired By Contractors

Twelve students in the construction option of the Technical Institute will be working for contractors this summer.

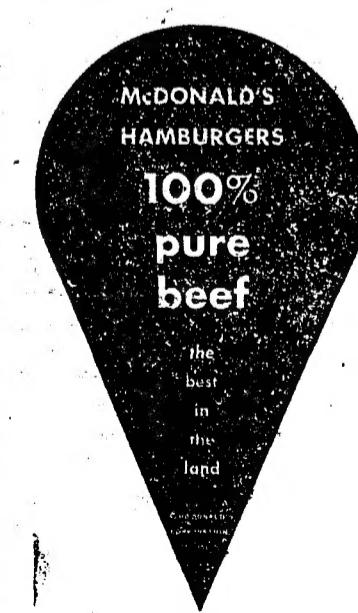

Edwin Kinney, head of the Institute, said the jobs were arranged through the Associated General Contractors. "Virtually the 12 men include all those interested in summer work of this kind," he said.

The jobs will enable them to earn enough money to return to OU in the fall. "Indirectly this will help the Technical Institute by assuring their return for their second year," Kinney said.

The A.G.C. contacted contractors in the Omaha area. They asked if they could employ any Technical Institute students who had one year of instruction.

Recreation Major's Club Elects Micek President

This Spring, members of Ernie Gorri's class prepared for their semester project, the foundation and organization of a new club. The newly formed Recreation Club has a membership of 50 and others may join in the fall. President for this semester and summer is Tom Micek. The vice-president, John Coschka, will be handed the president's gavel in the fall.

Regents Approve Faculty Changes

Continued from Page 1

—Lyndall D. Willard was named assistant professor of philosophy. He expects his Ph.D. this year from the University of Wisconsin. He holds bachelor of arts degrees from Tennessee Temple College and Baylor University, bachelor of divinity degree from Midwestern Baptist Seminary and master of science from the University of Wisconsin.

—Appointed assistant instructor of art is William C. Wold, who holds a bachelor's degree from the University of Minnesota. He comes from Detroit Lakes, Minn., where he has been teaching in the high school.

—Carl Jonas was named instructor of English for the first semester 1965-66. He holds a bachelor's degree from Williams College and has been a part-time lecturer at OU since 1957.

Resignations

The Regents accepted four resignations. Effective August 31 — Salatha M. Ford, instructor in English; Mrs. Dian Peterson, instructor of women's physical education; Dr. Conrad R. Wurtz, associate professor of education and director of the child development program.

Ivan Christiansen, business manager of student activities, resigned effective May 21, to take a similar position at Brownell-Talbot School.

Miss Carolyn Kundel, assistant professor of home economics, was granted a one semester leave of absence (fall 1965) to accept a General Foods Company Fellowship for study toward her doctorate at Iowa State University.

Library Extends Hours

The Gene Eppley Library will be open for extended hours during the exam period beginning May 26. Hours will be posted near entrances.

On May 31 the library will be closed.

In 1949, the 750 thousand dollar Fieldhouse, stadium and playing fields were completed providing facilities in all sports.

Milton On The Loose

Drop Out Stopper Becomes Dropper

By J. C. Milton

How's that for a cute stunt?"

"Oh yeah, well I bet you don't have girls as choice as the ones here," I said.

Again, he was nearly hysterical with laughter. "Listen," he said, "we have girls down there that look like Tuesday Weld and have all the moral fiber of a paperback book."

"No bidding! . . . I mean . . . Oh yeah," I said.

"Yeah," he said. "And fifty dollars will buy you an 'A' in any course, and we have poker games down there that put Reno to shame, and . . ."

"I've only got one question," I said, "how do you transfer out of this chicken college—I'm going with you."

Gorman Will Preside Over Teacher's Meet

Frank H. Gorman, Dean of the College of Teacher Education, will be the chairman of a subcommittee of the Nebraska Council of Teacher Education (NCTE). The Subcommittee, meeting next week, will review state certification requirements for endorsements in special education.

Zeta Tau Alpha, Lambda Chi's Place In Annual All-School Spring Sing

Zeta Tau Alpha and Lambda Chi Alpha took top honors at the all-school Spring Sing Wednesday night.

Each group sang the contest song and one other song of their own choice. The contest song for the women was "Peter Piper" and for the men, "Greenfields."

Judging was based on the contest song only. The judges were Mrs. Cecil Slocum, David H. Moore and Sidney Case.

In the women's competition, Alpha Xi Delta placed second and Sigma Kappa, third.

In second place in the men's competition was Pi Kappa Alpha and in third place, Tau Kappa Epsilon.

New members for Waokiya and Omicron Delta Kappa were tapped at the Sing. Membership in these groups is based on leadership in scholarship, athletics, publications, music and drama, and social and religious activities.

Waokiya

New members of Waokiya are Livi Bergman, Dottie Brian, Linda Flack, Kristy Isaacson, Julie Iverson, Pat Karre, Diane Mahoney and Patti Matson.

Others tapped were Kathleen McGuire, Marleen McGuire, Ruth Meyers, Jacque Newcomer, Sally Shepherd, Mary Sutton, Priscilla Wilkins and Pauline Williams.

New Waokiya officers for next year are Sally Shepherd, president; Patti Matson, vice-president; Linda Flack, secretary; Dean Elizabeth Hill, treasurer and Diane Mahoney, historian.

ODK

Men tapped for Omicron Delta Kappa are Craig Hoenshell, Ray

Officers Elected For Phi Mu Alpha Frat

Phi Mu Alpha music fraternity has announced its new officers for the next year.

Serving as new officers are Dennis Giles, president; Dan McClynn, vice-president and Le Moyne Johnson, secretary.

Others are Darrell Hossack, treasurer; Bill Michalenko, pledge trainer and Tim Nelson, executive alumni secretary.

The fraternity pledged two men last week during their regular business meeting. Those pledged were Jack Rando and Charles Williamson.

Delta Sigma Pi's Think Mewhirter Is 'Typical'

Delta Sigma Pi business fraternity choose Jack Mewhirter as typical Delta Sig.

This announcement was made at the fraternity's Senior Banquet held Sunday night at the Airport Silver Lining Room.

Mr. LeVern M. Cox, regional director of the fraternity, was the guest speaker.

Filipowski To Preside At M & M's Meetings

M&M's physical education club has elected new officers for next year.

Those presiding will be Barb Filipowski, president; Marleen Stark, vice-president; Donna Anderson, secretary; Becky Readhimer, treasurer and Lynn Gorton, publicity chairman.

International Relations Club To Meet Today

The International Relations Club will meet at 3:30 today in MBSC Rm. 315.

The agenda includes plans to discuss Latin America and United States policy. Two speakers who have recently returned from Latin America will be present at the meeting.

Hultman, Ed Jones, Jim Kaspar, Clyde Ketelsen, Larry Krehbiel and Lou Mehrer.

Others chosen are Frank Nocita, Bob Nelson, Dave Richardson, Rod Rhoden, Jim Solomonson, John Stolley, Mike Sweet, Rich Thompset and Tom Wolfe.

Dr. Leland Traywick was also tapped for membership in the group.

Announcement of new Corinthian members was also made at the Sing. Membership in the group is based on a 3.5 accumulative for 58 hours.

Corinthians

New Corinthians are Victoria Bastrom, Ann Bogacz, Judi Hoevet, Marsha Hunter, John Jorgenson, Ernest Katzer and Donna Kling.

Other new members are Harriet Kuncel, Leslie Mann, Patti Matson, Daniel Rishel, Sandra Schultz, Gerald Skinner, Evelyn Ullstrom.

Corinthian officers for the coming year are Frank Nocita, president; Sally Shepherd, vice-president; Linda Flack, secretary and Myra Hellbush, treasurer.

Outstanding Floats, Cars Capture Parade Awards

The traditional Ma-ie Day parade was bigger than ever this year. Thirteen floats and 130 decorated cars participated in the parade last Friday.

Awards for outstanding floats and cars decorated around the Ma-ie Day theme, "They'll Do It Everytime," were presented at the dance Friday evening.

"Sorry Charlie"

"Sorry Charlie," Zeta Tau Alpha sorority's entry, was awarded a trophy as the float that best fit the theme. The Zeta float was derived from the Star-kist Tuna advertisement in which Charlie the Tuna is constantly rejected by the tuna-fish manufacturers because he isn't good enough.

A trophy for best use of materials was presented to Alpha Xi Delta sorority for their float, "They'll Duet Everytime." The Alpha Xi float displayed two blue love birds with a large pink heart in the background.

Lambda Chi

Lambda Chi Alpha fraternity won a trophy for best workmanship. Lambda Chi's entry was a fish denoting "The One That Got Away." The fish was 25 feet long by 14 feet high and it had moving fins.

Five car awards were presented. A first place trophy went to the "Drop-Outs". "The St. Bernard" was presented a second place trophy.

Ribbons were handed to the "Money Car," the "Blue Elephant" and the "Garden of Knowledge" for third, fourth and fifth place awards respectively.

YR's Hear Nixon Talk, Thank Senator Curtis

Young Republican members heard Richard M. Nixon speak at a dinner in Lincoln, Nebr. yesterday. The dinner was held in honor of Senator Carl A. Curtis.

The Omaha University group presented a proclamation to Curtis thanking him for his service to the Republican Party.

Nixon was made an honorary member of the OU chapter of Young Republicans.

Election of the organization's new officers took place Tuesday. Nancy Schneiderwind will preside as president.

Other officers include Carolyn Williams, vice president; Judy Zerbe, secretary; Linda Logan, treasurer; John Tremont and Cathi Murphy, public relations, and Jerry Cobry, membership.

Greeks To Dance At Hawaiian Event

OU Greeks will be dancing comfortably this Saturday when Tau Kappa Epsilon presents its annual Coral Dance at the Carter Lake Club.

Attire for the affair is very casual—bermudas, grass skirts, sarongs, etc.

The Hawaiian-flavored dance will be held from 8 p.m. to midnight and will feature the Great Imposters combo.

Highlighting the evening will be the presentation of the TKE Coral Queen, chosen by an all-Greek vote. Candidates for the title are Jill Anderson of Alpha Xi Delta; Dodie Jenkins, Sigma Kappa; S. J. Johnson, Chi Omega and Lydia White of Zeta Tau Alpha.

Don McMichael, social chairman, is in charge of arrangements.

Senior Day, Dance Take Place Today

Today is Senior Day.

Graduating seniors will be recognized at a meeting in the Milo Bail Student Center Ballroom at 10:30 a.m. Mike Kissgen, senior class president, will preside over the meeting.

Awards will be presented to outstanding seniors.

The traditional senior class gift will be presented to the university by Herb Rhodes, class treasurer. Dr. Leland Traywick will accept the gift.

Professor Frances Hurst will present the charge to the class.

Following the presentations, the seniors will adjourn to the north side of the Student Center where they will plant a Red Maple tree.

A dinner dance will be held for the graduating class at the Lamplighter Motor Inn at 6:30 tonight. Dr. Ralph Wardle will speak.

Dance Honorary Honors Outstanding Members

Awards have been presented to the outstanding Orchesis members. The presentations were made at the dance honorary's concert held May 7.

Linda Hill was honored as the "Outstanding Senior Member" of Orchesis. Sheri Humphrey was awarded the title of "Outstanding Orchesis Member."

Both were elected by the members of the dance honorary on the basis of what they had contributed to the organization and their talent. They were given a dozen red roses and charm bracelets.

Chi O's Congregate, Seniors Say Sayonara

Twenty-one Chi Omega seniors will be honored Sunday at the sorority's annual Go-To-Church-Sunday and Senior Breakfast following it.

The Chi Omegas will attend 9 a.m. services at the First Methodist Church and then go to the home of Kristy Isaacson for a poolside breakfast and the presentation of gifts to seniors. Janet Anderson is in charge of the arrangements.

Those being honored are Teddy Backstrom, Liz Bressler, Marcia Catheart, Jana Doxon, Phyllis Faasse, Claudia Gere, Judy Gilbert, Dee Hammer, Sheri Hronek, Janelle Jeffrey, Mary Johnson, Jeri Klingforth, Janet Kroeger, Susie Krogh, Ruth Meyers and Judie Moody.

Others are Billie Poulsen, Linda Riddle, Sharon VanKat and Judy Williams.

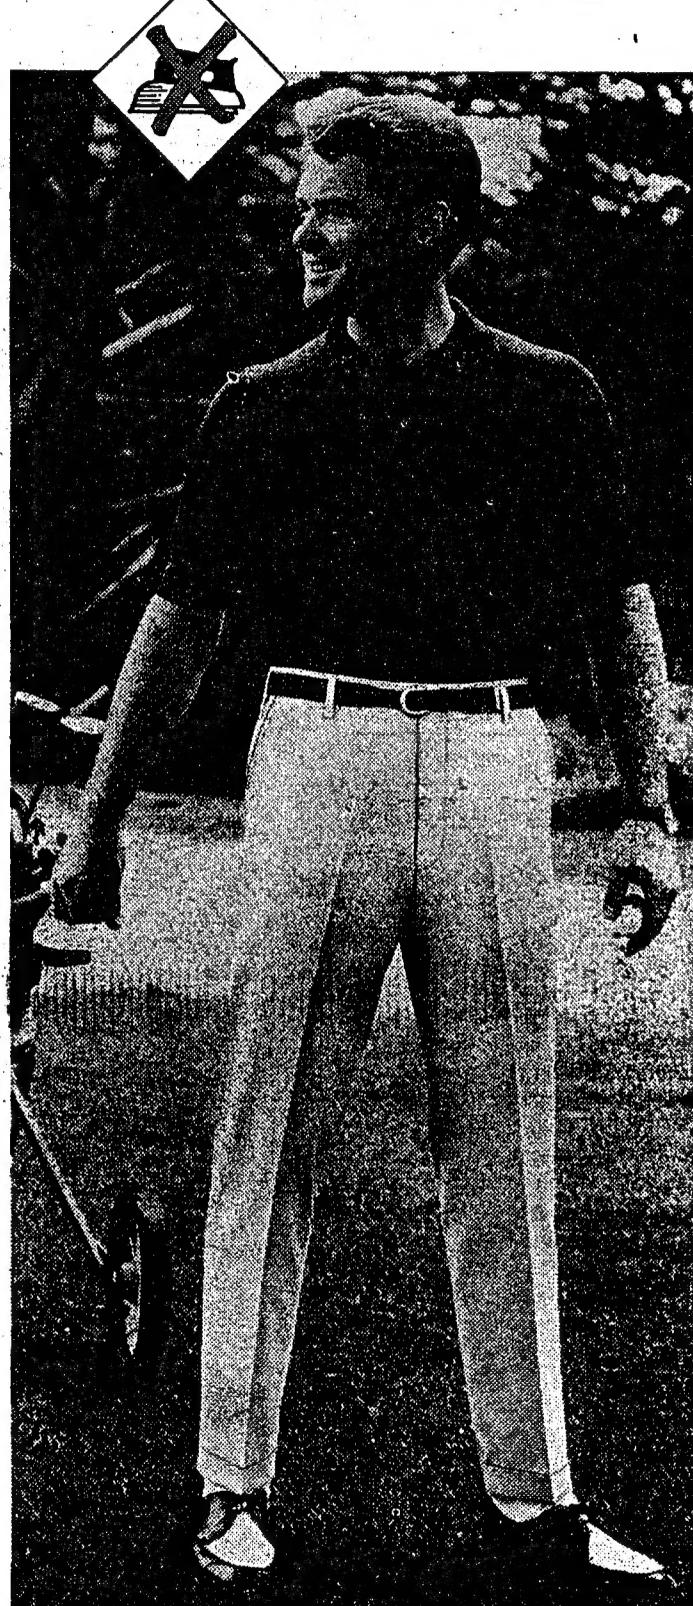

To be classified as a full time student, the student must carry a minimum load of 12 credit hours.

TKE Coral Queen candidates — Lydia White, Jill Anderson, Dodie Jenkins and S. J. Johnson. (Story at left.)
